KENTUCKY. Decorative. (Wigginton.)	
A wonderful new shade unlike anything we have ever seen makes this dahlia the most beautiful of all our collection. It is a sport of Jersey's Beauty and of course has all its habits with the exception it does not blight or stunt. We have tested it for four years and its color has never varied a single time. A brilliant light salmon-orange shading to orange yellow at base and deepening to grenadine pink on outer petals. We had thought the parent of this new dahlia the best in cultivation. Now we know there is a better one in "Kentucky." As we are writing this description we have before us a dozen blossoms of this season's novelties, and we honestly believe none of them will compare with it. The flower is larger than that of the parent. As growers of high grade dahlias we offer you Kentucky knowing that we are giving you a real dahlia in every respect	10.00
